WARNING

Failure or improper selection or use of the products and/or systems described herein or related items can cause death, personal injury, and property damage. This document and other information from Parker Hannifin Corporation, its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyse all aspects of your application and review the information concerning the product or system in this catalogue. Due to the variety of operating conditions and applications for the products or systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems and assuring that all performance, safety, and warning requirements of the application are met. The products described herein, including with limitation, product features, specification, designs, availability and pricing, are subject to change by Parker Hannifin Corporation and its subsidiaries at any time without notice.

Any use of images or information from this document without prior approval from Parker Racor is prohibited.

Introduction	3
Cross Reference Guide	4
Resources	7

Here at Parker's Engine & Mobile Filtration Division our primary business is to design and manufacture complete engine filtration solutions for the world's leading manufacturers.

Parker Racor has worked in partnership with many leading OEM's to design and manufacture the product you will see installed as a first fit product on the engine or vehicle.

The aftermarket version of those filters are also manufactured by Parker Racor and can be found in this catalogue, they are identical to the OEM filter in form, fit, function and performance and will not violate or invalidate the vehicle manufacturers warranty conditions.

Parker Racor are striving to ensure that the aftermarket has access to original quality product, and are proud to offer its filtration solutions to the independent aftermarket, maintaining the original specification of manufacture.

If you require further information or qualification data on the products in this catalogue, please email our technical support department.
