

Fleetguard®

Hydraulic Filtration for High-Horsepower Komatsu® Equipment

Uncompromising alternatives for lower total cost of ownership.

First to the Aftermarket

When your equipment is down due to unplanned maintenance, that's hard-earned revenue taken away from your bottom line. Fortunately, there are ways to protect against unplanned downtime with Fleetguard's range of filtration solutions.

Fleetguard hydraulic filters are designed to help keep your precision hydraulic-systems running as intended. Cummins Filtration offers Fleetguard hydraulic filtration solutions for a wide array of applications, including several newly released filters specifically for Komatsu®.

These Fleetguard filters meet or exceed the equipment OEM specifications and are the first aftermarket replacements available on the market today, bringing your operation top quality performance and an all around unbeatable total cost of ownership.

Proven Protection for Komatsu Applications
