Technical Specifications

Product Type:

Coolant Spin-on without Chemicals

Notes:

Long Life (150, 000 miles) used with Extended Service coolant.

Thread Size:

M36 x 2.0

Outside Diameter:

3 3/4 (95.3)

Length:

5 15/32 (138.9)

Includes:

F. Gasket: [1] Included

Micron Rating:

25 Nominal; 60 Absolute

Compatible Competitor Part Number:

Cummins 3680434

Application:

Cummins Engines

Brand:

Baldwin

Item Information

The objective of diesel engine coolant filters, also known as water filters, is to remove contaminants from the engine cooling system. Coolant filters can be of cartridge or spin-on design. However, spin-on designs are most common on today's diesel engine cooling systems. Coolant filters without chemicals, commonly called "Blank" coolant filters, should be used when a system is adequately charged and no additional SCAs are needed. The status of a cooling system can be determined using Baldwin's FleetStrip coolant test kit.
