# **Technical Specifications**

## **Product Type:**

Fuel/Water Separator Spin-on with Drain

Contains: Integral Post Seal

Thread Size: 1-14

**Outside Diameter:** 4 1/4 (108.0)

Length: 6 25/32 (172.2)

Includes: I. Gasket: [1] Included

#### **Related To:**

BF1223-O (with Open Port for Bowl);BF1223-SP (with Sensor Port);BF1224 (without Drain or Sensor Port)

Micron Rating: 10 Absolute

Compatible Competitor Part Number: Carrier 30-01079; Ford F1HZ-9365-A

## Application:

Carrier-Transicold, Ford, Hino Trucks; Ingersoll-Rand Compressors

#### Brand:

Baldwin

### Industry:

Automotive Heavy-duty on-highway transportation Commercial trucks and buses Agriculture Construction Industrial Marine Mining Oil & Gas Power Generation

#### Product Style:

Fuel Filter

## Technology:

Filtration

# **Item Information**

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel filters with heavy-duty construction keep fuel clean and engines running at maximum efficiency. New fuel systems

operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine.
