Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel

# **Technical Specifications**

#### **Product Type:**

Fuel/Water Separator Spin-on with Drain

#### Notes:

CAUTION: Furnished O-Ring must be installed on post for seal.

#### **Thread Size:**

13/16-18

#### **Outside Diameter:**

3 11/16 (93.7)

#### Length:

6 1/4 (158.8)

#### Includes:

F. Gasket: [1] Included; I. Gasket: G401

#### Related To:

BF7879 (without Drain)

#### Micron Rating:

4 Nominal; 20 Absolute

#### **Compatible Competitor Part Number:**

Cummins 3925274

## Application:

**Cummins Engines** 

#### **Brand:**

Baldwin

#### Industry:

Automotive

Heavy-duty on-highway transportation

Commercial trucks and buses

Agriculture

Construction

Industrial

Marine

Mining

Oil & Gas

**Power Generation** 

#### **Product Style:**

**Fuel Filter** 

## **Technology:**

Filtration

# **Item Information**

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel filters with heavy-duty construction keep fuel clean and engines running at maximum efficiency. New fuel systems

operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine.
