

Baldwin - Spin-on Fuel Filters

[Solutions](#)
Part #: BF592
[Where to Buy](#)

Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel filters keep fuel clean and engines running at maximum efficiency.

Technical Specifications

Brand:	Baldwin Automotive Heavy-duty on-highway transportation Commercial trucks and buses	Technology:	Filtration
Industry:	Agriculture Construction Industrial Marine Mining Oil & Gas Power Generation	Product Type:	Primary Fuel Spin-on
Product Style:	Fuel Filter	Notes:	Can be used with FB1301 base.
		Thread Size:	1-12
		Outside Diameter:	3 11/16 (93.7)
		Length:	4 11/32 (110.3)
		Gasket:	Integral Gasket: [1] Included
		Related To:	BF5800 (Long Version)
		Micron Rating:	9 Nominal; 25 Absolute
		Application:	Detroit Diesel Engines
		Compatible Competitor Part Number:	Detroit Diesel 23518527

Item Information

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel filters with heavy-duty construction keep fuel clean and engines running at maximum efficiency. New fuel systems operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine.
