## Technical Specifications

**Product Type:**

Fuel Spin-on with Drain

**Notes:**

CAUTION: Furnished D-Ring must be installed on post for seal.; Can be used with FB1311 base.

**Thread Size:**

1-14

**Outside Diameter:**

3 11/16 (93.7)

**Length:**

5 7/16 (138.1)

**Includes:**

I. Gasket: G381-A; O-Ring: ES24-D

**Related To:**

BF948 (Short Version);BF1212 (Fuel/Water Separator Version);BF7557, BF7558 (Extended Life Versions)

**Micron Rating:**

5 Nominal; 20 Absolute

**Compatible Competitor Part Number:**

Cummins 154789

**Application:**

Cummins Engines

**Brand:**

Baldwin

**Industry:**

Automotive  
Heavy-duty on-highway transportation  
Commercial trucks and buses  
Agriculture  
Construction  
Industrial  
Marine  
Mining  
Oil & Gas  
Power Generation

**Product Style:**

Fuel Filter

**Technology:**

Filtration

---

## Item Information

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin spin-on fuel filters with heavy-duty construction keep fuel clean and engines running at maximum efficiency. New fuel systems

operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine.
