# Baldwin - Spin-on Coolant Filters with BTE Formula

Part #: BW5137

The objective of diesel engine coolant filters, also known as water filters, is to remove contaminants from the engine cooling system and add chemicals to the coolant itself to replenish important protectants that may be lost over time.

## Technical Specifications

Brand:	Baldwin	Length:	4 13/32 (111.9)
Product Type:	Coolant Spin-on with BTE Formula	Gasket:	Integral Gasket: G381-A
Notes:	Maintenance filter for systems with 11-20 gallons capacity.; Can be used with CFB5000 base or CFB8784 dual base.	Micron Rating:	20 Nominal; 45 Absolute
Contains:	4 Units BTE	Application:	Allis Chalmers, Caterpillar, Fiat-Allis, International, Komatsu Equipment; Chevrolet, Freightliner, GMC, International, Iveco, Kenworth, Peterbilt Trucks
Thread Size:	11/16-16	Compatible	Allis Chalmers 4681776; Caterpillar 9N3368; Cummins 209606; GMC 23507545; Ford D2HZ-8A424-A; International 1801090-C1; Komatsu 600-411-1020
Outside Diameter:	3 11/16 (93.7)	Competitor Part Number:

## Item Information

"The objectives of diesel engine coolant filters, also known as water filters, are to remove contaminants from the engine cooling system and add chemicals to the coolant itself to replenish important protectants that may be lost over time. Baldwin Filters' coolant spin-on filters with Balanced Treatment for Ethylene Glycol (BTE) formula are designed to protect the engine and enhance its performance. BTE formula coolants offer a combination of low-silicate antifreeze and water, which removes heat and lubricates the water pump. They provide freeze protection and prevent scale-sludge formation.
