Technical Specifications

Product Type:

Coolant Spin-on with BTE Formula

Notes:

Can be used with CFB5000 base or CFB8784 dual base.

Contains:

8 Units BTE

Thread Size:

11/16-16

Outside Diameter:

3 11/16 (93.7)

Length:

3 7/32 (81.8)

Includes:

I. Gasket: G381-A

Micron Rating:

20 Nominal; 45 Absolute

Compatible Competitor Part Number:

Komatsu 600-411-1181

Application:

Komatsu Excavators, Loaders

Brand:

Baldwin

Item Information

"The objectives of diesel engine coolant filters, also known as water filters, are to remove contaminants from the engine cooling system and add chemicals to the coolant itself to replenish important protectants that may be lost over time. Baldwin Filters' coolant spin-on filters with Balanced Treatment for Ethylene Glycol (BTE) formula are designed to protect the engine and enhance its performance. BTE formula coolants offer a combination of low-silicate antifreeze and water, which removes heat and lubricates the water pump. They provide freeze protection and prevent scale-sludge formation.
