## Technical Specifications

**Product Type:**

Coolant Element without Chemicals

**Notes:**

Has a Bail Handle.

**Outside Diameter:**

3 21/32 (92.9)

**Inside Diameter:**

1 5/8 (41.3) One End

**Length:**

5 9/32 (134.1)

**Includes:**

O-Ring: [1] Included

**Compatible Competitor Part Number:**

Detroit Diesel A4722030155, A4722030255; Mercedes-Benz A4722030255

**Application:**

Detroit Diesel DD15 (14.8L) Engine; Freightliner, Mercedes-Benz, Sterling, Western Star Trucks

**Brand:**

Baldwin

## Item Information

The objective of diesel engine coolant filters, also known as water filters, is to remove contaminants from the engine cooling system. Coolant filters can be of cartridge or spin-on design. However, spin-on designs are most common on today's diesel engine cooling systems. Coolant filters without chemicals, commonly called "Blank" coolant filters, should be used when a system is adequately charged and no additional SCAs are needed. The status of a cooling system can be determined using Baldwin's FleetStrip coolant test kit.
