Technical Specifications

Product Type:

Water Absorbing Fuel Storage Tank Element

Contains:

1 1/8-12 Mounting Stud

Outside Diameter:

3 (76.2)

Length:

4 7/8 (123.8)

Includes:

F. Gasket: G264-A; End Seals: [1] Attached

Related To:

PF10 (Standard Version)

Micron Rating:

17 Nominal

Brand:

Baldwin

Industry:

Automotive

Heavy-duty on-highway transportation

Commercial trucks and buses

Agriculture

Construction

Industrial

Marine

Mining

Oil & Gas

Power Generation

Product Style:

Fuel Filter

Technology:

Filtration

Item Information

"Dirty fuel is a fact of life. Baldwin fuel dispensing filters clean fuel before it reaches the vehicle, helping to prevent premature parts wear and to keep engines running at maximum efficiency. Modern fuel injection systems require fuel be free of both particulate and water contamination. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components.
