## Technical Specifications

**Product Type:**

Fuel Storage Tank Element

**Contains:**

1 1/8-12 Mounting Stud

**Outside Diameter:**

3 (76.2)

**Length:**

4 7/8 (123.8)

**Fits Inside:**

B10-AL, B10-AL BSP Assembly

**Includes:**

F. Gasket: G264-A; End Seals: [1] Attached

**Related To:**

PF10-CS (Water Absorbing Media Version)

**Micron Rating:**

4 Nominal; 15 Absolute

**Brand:**

Baldwin

**Division:**

Engine Mobile Aftermarket

**Industry:**

Agriculture, Automotive, Commercial trucks and buses, Construction, Heavy-duty on-highway transportation, Industrial, Locomotive, Marine, Mining, Oil & Gas, Power Generation

**Technology:**

Filtration

## Item Information

"Dirty fuel is a fact of life. Baldwin fuel dispensing filters clean fuel before it reaches the vehicle, helping to prevent premature parts wear and to keep engines running at maximum efficiency. Modern fuel injection systems require fuel be free of both particulate and water contamination. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components.
