#### Outside Diameter: 4.34375 inch, 110.3 mm

Product Type: Fuel Element

Series or Model Replaced: Nissan 16444-97001

**Product Series:** Baldwin Diesel Fuel Filter Elements

**Substance:** Diesel, bio-diesel blends up to B-20 and gasoline

Technology: Filtration

Weight: 0.61461716 kg, 1.355 lb

### **Item Information**

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin fuel filters keep fuel clean and engines running at maximum efficiency. New fuel systems operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine
