## Technical Specifications

**Product Type:**

Fuel Element

**Contains:**

Reinforced Centertube

**Outside Diameter:**

3 5/16 (84.1)

**Inside Diameter:**

1 1/16 (27.0)

**Length:**

6 1/2 (165.1)

**Includes:**

PF823 (with Furnished Gaskets)

**Related To:**

PF823 (with Furnished Gaskets)

**Micron Rating:**

4 Nominal; 15 Absolute

**Compatible Competitor Part Number:**

Caterpillar 4H8792

**Application:**

Caterpillar, DMI, Unit Rig, WABCO Equipment

**Brand:**

Baldwin

**Division:**

Engine Mobile Aftermarket

**Industry:**

Agriculture, Automotive, Commercial trucks and buses, Construction, Heavy-duty on-highway transportation, Industrial, Locomotive, Marine, Mining, Oil & Gas, Power Generation

**Technology:**

Filtration

## Item Information

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin fuel filters keep fuel clean and engines running at maximum efficiency. New fuel systems operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine
