## Technical Specifications

**Product Type:**

Fuel Element

**Outside Diameter:**

3 23/32 (94.5)

**Inside Diameter:**

1 1/32 (26.2) One End

**Length:**

6 13/32 (162.7)

**Includes:**

Grommets: [1] Attached; O-Ring: [2] Included

**Related To:**

PF7983 (Without Furnished O-Rings)

**Micron Rating:**

5 Absolute

**Compatible Competitor Part Number:**

New Holland KHH12030

**Application:**

Case, Link-Belt Excavators

**Brand:**

Baldwin

**Division:**

Engine Mobile Aftermarket

**Industry:**

Agriculture, Automotive, Commercial trucks and buses, Construction, Heavy-duty on-highway transportation, Industrial, Locomotive, Marine, Mining, Oil & Gas, Power Generation

**Technology:**

Filtration

## Item Information

"Modern fuel injection systems require fuel be free of both particulate and water contamination. Baldwin fuel filters keep fuel clean and engines running at maximum efficiency. New fuel systems operate at higher pressures (up to 60,000 psi) and tighter tolerances than ever before. Microscopic particles in the fuel, as small as 2-3 microns, can cause abrasive wear severely damaging the fuel injection system and other high pressure engine components. Baldwin Filters offers more than 1100 different fuel filters, fuel managers, coalescers, and fuel/water separators to protect your engine
