## CS41013

### Centrifuge Assembly

Fleetguard<sup>®</sup> CS41013 uses the drop-in disposable rotor solution for centrifuges in Fleetguard remote centrifuge housings and Eliminators<sup>™</sup> on Cummins engines ranging from 19L to 95L. These Fleetguard rotors replace the current assembly with a single drop-in option, reducing service time from 1.5-2 hours to approximately 20 minutes without the need for any special tools.
