CS41016

Centrifuge Assembly

Fleetguard® CS41016 uses the drop-in disposable rotor solution for centrifuges in Fleetguard remote centrifuge housings and Eliminators™ on Cummins engines ranging from 19L to 95L. These Fleetguard rotors replace the current assembly with a single drop-in option, reducing service time from 1.5-2 hours to approximately 20 minutes without the need for any special tools.
