Item Information

Items marked with an asterisk * in the drop-down menus are standard choices.

The 130 series is a range of high flow return filters for industrial use on hydraulic or lubrication systems. Flow up to 1400 l/min and pressure up to 30 bar in single units. Ability to bank multiple filters together enables continuous filtration during element changes. Coreless Ecoglass III elements.

Typical applications:

- · Paper production plants
- Steel mills
- · Aluminium mills
- · Industrial power packs
- · Lubrication systems
- Power generation

Medium Pressure Inline Hydraulic Oil Filter – iProtect® GMF Series
