Push On Field Attachable Hydraulic Hose Fitting - 82 Series - Europe

Part #: 39282-12-12

Configure hose assemblies quickly and easily in the field without special tools with Parker's 82 series one-piece, push-on field-attachable hydraulic fittings.

Technical Specifications

Body Material:

Connection 2 Female BSP Parallel Pipe - Swivel - (60° Cone) Type:

Hose I.D. (size):

Air (General Industrial Air), Coolants (Glycol), Fuels -Check fuel type with our catalogue chart., Lubricants For Fluid Type: (Oils), Petroleum Hydraulic Fluids (Petroleum & Water-

Glycol Base), Water

Shape: Straight Brand: Parker

Connection 2 Female, BSP Parallel Pipe, Swivel, 60° Cone Type:

Shape: Straight

Division: Polymer Hose Division Europe

Port Connection:

Industry: Industrial Manufacturing Equipment

Port Type: DKR Hex Type: metric

Machine Tools, Injection Moulding Machines, Paper Application:

Machines, Transfer Lines

Specifications BS 5200-A

Technology: Fluid & Gas Handling

Product Type: Barbed Fittings|Push-Lok Hose Fittings

Connection 2 3/4x14 inch Thread

Size: **Body Material:** Steel

Maximum

42.0 MPa, 420 bar Operating Pressure:

Connection 1

19.1 mm Hose I.D., 3/4 inch Hose I.D., -12 (Size) Size:

Connection 1

Hose Type:

Connection 21 mm (see drawing legend B) Length: Hex Size: 32 mm (see drawing legend W)

Fitting Length: 58 mm (see drawing legend A)

Item Information

Parker 82 Series "Push-Lok®" Fittings are push-on, barb-style field-attachable hydraulic fittings that allow users to quickly and easily make hose assemblies right on the job site without special tools. When coupled with Parker's Push-Lok hoses, 82 series fittings deliver convenience and shorter assembly times, as no clamp is required. Reusable 82 Series fittings feature a one-piece construction for reduced complexity and less chance of leakage. Compatible with the Push-Lok family of multipurpose hoses, 82 series fittings can be used with high temperature, dry air, hot water, fire-resistant, and higher pressure hoses. Offered in a wide range of end configurations and in sizes ranging from size -4 /DN 6) to size -16 (DN 25), 82 Series fittings are available in steel, brass or stainless steel steel. Applications include pneumatics, petroleum-base fluids, antifreeze, diesel, and phosphate ester.

Markets:

- · Machine Tools
- · Paper Industry
- Injection Moulding Machines
- Ground Support Equipment
- · Chemical Industry
- Transfer Lines
- PET Blow Forming Machines
- · Robots and Welding Installations
- · Power electronics

Features/Benefits:

- · Can be assembled in field with wrenches
- · Imperial HEX
- · Wide range of end configurations
- One piece reduces complexity and leakage path
- · No-Skive technology offers easy, efficient, and safe production processes

Applications

- · Petroleum base hydraulic fluids and lubricating oils
- Pneumatic
- · Antifreeze solutions
- · Diesel fuels
- · Phosphate ester
- · Dry air and water

Compatible Hoses:

- 801PLUS
- 801RH
- 804
- 821FR
- 830M • 836
- •837BM
- 8337PU
- 838M
- 846
