High Pressure In-Line Filter - 70/70 Eco Series

Part #: 70B210QHBPXX322

High pressure inline hydraulic oil filter series is a proven filter concept, with multiple connection options up to 500l/min and pressures up to 420 bar.

Technical Specifications

Division:	Hydraulic and Industrial Process Filtration EMEA		Drilling machines
Flow Rate:	0 to 330 l/min		Dumpers
Indicator Pressure Setting:	No indicator		Hydraulic power units
Brand:	Parker	Application:	Mobile cranes
Seal Material:	Nitrile		Reach stackers
Technology:	Filtration		Container handling equipment
Bypass Valve Pressure Rating:	No by pass		Cranes
Product Series:	70/70 Eco Series		Excavators
Connection Type:	Side manifold		Crushing machines
	Mining	For Fluid Type:	Propulsion systems
	Material handling		Deck machinery
Industry:	Construction	Operating Pressure:	Wind turbines
	Marine	Operating Temperature:	Hydropower
	Power Generation		Servo controls
	Industrial Machinery		Suitable for use with mineral and vegetable oils, and some synthetic oils.
	Injection Moulding	Materials of Construction:	420 bar
Options:	No by pass		-40°C to +100°C
			Head:
			Cast iron (GSI).
			Bowl:
			Steel. Max torque 40 Nm.

[Safety Warning](#)

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The low hystereis differential pressure indicator fitted to this series is unrivalled in its performance.

Typical Applications

- Mobile working hydraulics
- Mobile drive system
- Injection moulding
- Servo controls
- Die casting
- Machine tools
- Industrial power units
