

High Pressure In-Line Filter - 70/70 Eco Series

[Solutions](#)

Part #: 70L102QHBPXG162

[Where to Buy](#)

High pressure inline hydraulic oil filter series is a proven filter concept, with multiple connection options up to 500l/min and pressures up to 420 bar.

Technical Specifications

Flow Rate:	0 to 130 l/min		Drilling machines
Division:	Hydraulic and Industrial Process Filtration EMEA		Dumpers
Brand:	Parker		Hydraulic power units
Indicator Pressure Setting:	No indicator		Mobile cranes
Seal Material:	Nitrile	Application:	Reach stackers
Technology:	Filtration		Container handling equipment
Bypass Valve Pressure Rating:	No by pass		Cranes
Product Series:	70/70 Eco Series		Excavators
Connection Type:	G1"		Crushing machines
	Mining	For Fluid Type:	Propulsion systems
	Material handling		Deck machinery
Industry:	Construction	Operating Pressure:	Wind turbines
	Marine	Operating Temperature:	Hydropower
	Power Generation		Servo controls
	Industrial Machinery		Suitable for use with mineral and vegetable oils, and some synthetic oils.
	Injection Moulding	Materials of Construction:	420 bar
Options:	No by pass		-40°C to +100°C
			Head:
			Cast iron (GSI).
			Bowl:
			Steel. Max torque 40 Nm.

Safety Warning

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The low hystereis differential pressure indicator fitted to this series is unrivalled in its performance.

- Technical Applications
- Parker** hydraulics
- Industrial systems
- Injection moulding
- Home Servo controls
- Die casting
- Products Machine tools
- Industrial power units
