

High Pressure In-Line Filter - 70/70 Eco Series

[Solutions](#)

Part #: 70L405QBPKG241

[Where to Buy](#)

High pressure inline hydraulic oil filter series is a proven filter concept, with multiple connection options up to 500l/min and pressures up to 420 bar.

Technical Specifications

Flow Rate:	0 to 420 l/min		Drilling machines
Division:	Hydraulic and Industrial Process Filtration EMEA		Dumpers
Brand:	Parker		Hydraulic power units
Indicator Pressure Setting:	No indicator		Mobile cranes
Seal Material:	Nitrile	Application:	Reach stackers
Technology:	Filtration		Container handling equipment
Product Series:	70/70 Eco Series		Cranes
Bypass Valve Pressure Rating:	3.5 bar		Excavators
Connection Type:	G1½"	Options:	Crushing machines
	Mining		Propulsion systems
	Material handling	For Fluid Type:	Deck machinery
	Construction		Wind turbines
Industry:	Marine	Operating Pressure:	Hydropower
	Power Generation		Servo controls
	Industrial Machinery	Operating Temperature:	Standard
	Injection Moulding		Suitable for use with mineral and vegetable oils, and some synthetic oils.
		Materials of Construction:	350 bar
			-40°C to +100°C
			Head:
			Cast iron (GSI).
			Bowl:
			Steel. Max torque 40 Nm.

Safety Warning

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The differential pressure indicator fitted to this series is unrivalled in its performance.

- Mobile drive system
- Injection moulding
- Servo controls
- Die casting
- Machine tools
- Industrial power units
