

High Pressure In-Line Filter - 70/70 Eco Series

[Solutions](#)

Part #: 70T210QEEM3KG201

[Where to Buy](#)

High pressure inline hydraulic oil filter series is a proven filter concept, with multiple connection options up to 500l/min and pressures up to 420 bar.

Technical Specifications

Division:	Hydraulic and Industrial Process Filtration EMEA		Drilling machines
Flow Rate:	0 to 250 l/min		Dumpers
Brand:	Parker		Hydraulic power units
Indicator Pressure			Mobile cranes
Setting:	2.5 bar		Reach stackers
Seal Material:	Nitrile	Application:	Container handling equipment
Technology:	Filtration		Cranes
Product Series:	70/70 Eco Series		Excavators
Bypass Valve Pressure			Crushing machines
Rating:	3.5 bar		Propulsion systems
Connection Type:	G1¼"		Deck machinery
	Mining	Options:	Wind turbines
	Material handling		Hydropower
	Construction	For Fluid Type:	Servo controls
	Marine		Standard
Industry:	Power Generation	Operating Pressure:	Suitable for use with mineral and vegetable oils, and some synthetic oils.
	Industrial Machinery	Operating Temperature:	420 bar
	Injection Moulding		-40°C to +100°C
		Materials of	Head:
		Construction:	Cast iron (GSI).
			Bowl:
			Steel. Max torque 40 Nm.

Safety Warning

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The differential pressure indicator fitted to this series is unrivalled in its performance.

- Mobile drive system
- Injection moulding
- Servo controls
- Die casting
- Machine tools
- Industrial power units
