Replacement Elements - High Pressure In-Line Filter 70/70 Eco Series

Part #: 938774Q Where to Buy

High pressure inline hydraulic oil filter series is a proven filter concept, up to 500l/min and pressures up to 420 bar.

Technical Specifications

70 series length 1 For Use With:

Division: Hydraulic and Industrial Process Filtration EMEA

20Q Microglass Filter Element Type: Brand: Parker Technology: Filtration Micron Rating: 20 um

Product Type: Hydraulic Oil Filter Replacement Elements

Seal Material:

Product Series: 70/70 Eco Series 115 mm Length: Plastic End Cap Material:

Mining

Material handling Construction

Industry: Marine Power Generation

Industrial Machinery Injection Moulding

Options:

Drilling machines Dumpers Hydraulic power units Mobile cranes Reach stackers

Container handling equipment

Cranes

Excavators Crushing machines Propulsion systems Deck machinery Wind turbines Hydropower Servo controls

Suitable for use with mineral and vegetable oils, and

For Fluid Type: some synthetic oils. 420 bar (350 bar Length 4) Maximum.

Operating Pressure:

Operating Temperature:

Application:

-40°C to +100°C.

▲ Safety Warning

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The low hystereis differential pressure indicator fitted to this series is unrivalled in its performance.
