

Replacement Elements - High Pressure In-Line Filter 70/70 Eco Series

[Solutions](#)

Part #: 938832Q

[Where to Buy](#)

High pressure inline hydraulic oil filter series is a proven filter concept, up to 500l/min and pressures up to 420 bar.

Technical Specifications

Division:	Hydraulic and Industrial Process Filtration EMEA		
For Use With:	70 series length 3		
Brand:	Parker		
Filter Element Type:	10Q Microglass		
Micron Rating:	10 µm		
Technology:	Filtration	Application:	Drilling machines Dumpers Hydraulic power units Mobile cranes Reach stackers Container handling equipment Cranes Excavators Crushing machines Propulsion systems Deck machinery Wind turbines Hydropower Servo controls
Seal Material:	EPDM		
Product Type:	Hydraulic Oil Filter Replacement Elements		
Product Series:	70/70 Eco Series		
Length:	328 mm		
End Cap Material:	Tin plated steel	Options:	Epoxy glued end caps
	Mining	For Fluid Type:	Suitable for use with mineral and vegetable oils, and some synthetic oils.
	Material handling	Operating Pressure:	420 bar (350 bar Length 4) Maximum.
	Construction	Operating	
Industry:	Marine	Temperature:	-
	Power Generation		
	Industrial Machinery		
	Injection Moulding		

 [Safety Warning](#)

Item Information

The 70/70 Eco Series of high pressure filters are designed to satisfy demanding applications in the mobile and industrial markets. With multiple mounting options, this high pressure filter series is right filter for many applications. The 70/70 Eco Series filter series has a wide range of high capacity and low initial differential pressure elements, including a no metal content Eco element, offering excellent protection to system components.

The 70/70 Eco Serie offers several bowl lengths to secure the lowest possible pressure drop for each application. For critical applications such as servo or proportional controls, a no bypass high strength element combination ensures maximum protection.

The low hystereis differential pressure indicator fitted to this series is unrivalled in its performance.

- Technical Applications
-  hydraulics
-  systems
- Injection moulding
- Servo controls
- Die casting
- Machine tools
- Industrial power units
