Item Information

Items marked with an asterisk * in the drop-down menus are standard choices.

The DF2145 Series duplex filter offers several filtration media options include environmentally friendly Ecoglass elements, Microglass, Cellulose and Metal Mesh media. allowing a wide selection of applications. These replacement elements ensure the quality of filtration Parker is known for.

Using genuine Parker replacement elements guarantees Parker's quality of filtration. Using after market filters with unknown media quality may save initial cost, but can increase overall costs by requiring more element change outs and potentially causing system downtime. Protect your investment by always buying genuine Parker replacement elements.
