Services Tanktop Mounted Return Line Filter - BGT Series

Whatt#BB/GT1802QBS1ER483

The BGT Series features pre-filtration by means of a magnet column and a full flow bypass with low hysteresis. Providing maximum flow rates of 2400 l/min at maximum pressure 10 bar.

Options: Seal Material: Mounting Type: Pressure Rating: Housing Material: 2 µm Electrical 42V, NO/NC, M10x1 BGT Series

Mobile cranes

- Excavators
- Deck cranes
 Fire fighting equipment
- Hydraulic presses
- Waste balers
- Industrial power units
- Fork lift trucks

Diffuser type T Nitrile

Tank Mounted 0-34 bar (0-500 psi) Aluminium

▲ Safety Warning

Item Information

BGT tanktop mounted return line filters feature pre-filtration by means of a magnet column and a quick response bypass with low hysteresis. Thanks to the 'In-to-Out' filter principle, contaminated oil cannot leak back into the system. BGT Filters are available in versions capable of handling flow rates up to 2400 I/min. They can operate with a maximum working pressure of 10 bar.

LEIF® elements are available for environment-friendly filtration for versions up to 1500 l/min.

Product Features:

- · BGT features pre-filtration by means of a magnet column.
- · Filter heads with multiple ports available.
- · Flow from inside to out.
- · Full flow bypass with low hysteresis.
