Low Pressure In-Line Duplex Filter - DF2089 Series

Part # DF2089120QVPHX603

The DF2089 duplex filter is a cast iron duplex filter for Heavy duty duplex operation applications. Suitable for flows up to 350 l/min and pressures up to 30 bar.

Technical Specifications

Flow Rate:	0 to 300 l/min	Connection Type:	60 mm Square flange & Blind counter flange
Flow Rate:	350 L/min	Housing Material:	Cast iron
Filter Element Type:	20Q Microglass	Indicator Type:	Indicator block plugged
Seal Material:	Fluorelastomer	Operating Temperature:	-20 / +120 °C
Mounting Type:	Inline	Indicator Pressure Setting:	No indicator
Micron Rating:	20 µm	Options:	With bypass, with magnet
Pressure Rating:	30 bar	Mounting Type:	Inline
Operating Pressure:	30 bar	Seal Material:	Fluorelastomer
Bypass Valve Pressure Rating:	2.0 bar	Housing Material:	Cast iron

Item Information

The DF2089 Series is a heavy duty duplex filter suitable for gear lube, turbine lube and hydraulic applications. They have a cast iron housing with a pressure rating up to 30 bar.

DF2089 features in to out flow to keep the particles away even during the filter change. A differential pressure indicator can be mounted on the filter and has easy access.

Available with several element media options, allowing lube, fuel and hydraulic filtration use.

Pre-filtration with magnets as an option. Maximum flow rate up to 350 l/min. Maximum pressure 30 bar.

Applications:

- Propulsion system lube oil filter
- Heavy fuel oil safety filter
- Medium pressure hydraulic systems.
