DIGI Plus Oil Test Kits

[Solutions](#)

Part # **FG-K6-101-KW+**

Protect your assets, improve productivity, and increase uptime with regular on-site oil analysis. Parker's complete range of economical oil test kits provide reliable oil condition results in minutes.

Technical Specifications

For Fluid Type:	System and Cylinder Oils	Flow Rate:	n/a
Product Style:	Water	Port Size:	n/a
For Fluid Type:	Oil, Fuel Oil	Port Type:	n/a
Weight:	Packaged 5.7 kg, Packaged 12.5 lb	Maximum Fluid Temperature:	n/a
Accuracy:	±10% of new oil BN	Minimum Fluid Temperature:	n/a
Technology:	Filtration, Hydraulics	Sensing Method:	Pressure reaction
Body Material:	Glass Reinforced Plastic	Communication Interface:	USB connection
Electrical Requirements:	Rechargeable Battery	Signal Output:	Visual display
Specifications Met:	CE Certification	Cycle Time:	3 min
Operating Temperature:	18 to 65 °C, 64 to 149 °F	Materials of Construction:	Case: Aluminum or ABS
Brand:	Kittiwake	Seal Material:	n/a
Division:	Hydraulic & Industrial Process Filtration Division	Height:	112 mm
Industry:	Marine	Width:	77 mm
Product Type:	Condition Monitor	Package Type:	Rugged Design portable case
Operating Pressure:	n/a

Item Information

Parker's DIGI Plus oil test kits provide a condition monitoring tool enabling you to make informed operational and maintenance decisions about your critical plant and equipment. The ability to test on-site at the point of use enables engineers and facilities managers to conduct oil analysis quickly and easily. Detecting out-of-spec fuels and lubricants can identify potential problems before they become critical. Choose from a range of equipment and parameters to use either individually or combined as a single test kit.

Available Kits:

DIGI Plus Test Cell - The DIGI Plus Test Cell from Parker is a compact, onboard oil test kit ideally suited for use in marine applications. T'ell is capable of testing for water in oil.

DIGI Plus Base Number Test Kit - Parker's oil test kit range provides a complete set of economically priced equipment, with a level of ac suited to routine analysis. The test kit is capable of testing for total base number (TBN).

DIGI Plus Field Kit - The DIGI Plus Field Kit from Parker comes complete with tests for Water in Oil, Total Base Number, Total Acid Number, and Viscosity Comparison. This kit provides the ability to test on-site, resulting in convenient routine oil analysis.
