# DIGI Plus Oil Test Kits

[Solutions](#)

**Part # FG-K6-971-KW+**  
[where to buy](#)

Protect your assets, improve productivity, and increase uptime with regular on-site oil analysis. Parker's complete range of economical oil test kits provide reliable oil condition results in minutes.

## Technical Specifications

For Fluid Type:	Fuel Oil	Minimum Fluid Temperature:	n/a
Product Style:	Total Acid Number (TAN) Sensor	Operating Pressure:	n/a
For Fluid Type:	Fuel Oil	Operating Temperature:	18 to 65 °C, 64 to 149 °F
Flow Rate:	n/a	Package Type:	Rugged Design portable case
Brand:	Kittiwake	Port Size:	n/a
Cycle Time:	3 min	Port Type:	n/a
Height:	112 mm	Product Type:	Condition Monitor
Communication Interface:	USB Connection	Seal Material:	n/a
Division:	Hydraulic & Industrial Process Filtration Division EMEA	Sensing Method:	TBN/Oil in Water: Electronic Transducer, Viscosity: Comparator (Viscstick), TAN/Insolubles: Chemical
Body Material:	DIGI Cell: Glass Reinforced Plastic	Signal Output:	TBN/Oil in Water: LCD Display
Electrical Requirements:	Rechargeable Battery	Specifications Met:	CE Certification
Industry:	Marine	Technology:	Filtration, Hydraulics
Materials of Construction:	Case: Aluminum or ABS	Weight:	5.7 kg, Packaged 13.5 lb
Maximum Fluid Temperature:	n/a	Width:	77 mm

## Item Information

Parker's DIGI Plus oil test kits provide a condition monitoring tool enabling you to make informed operational and maintenance decisions about your critical plant and equipment. The ability to test on-site at the point of use enables engineers and facilities managers to conduct oil analysis quickly and easily. Detecting out-of-spec fuels and lubricants can identify potential problems before they become critical. Choose from a range of equipment and parameters to use either individually or combined as a single test kit.

### Available Kits:

DIGI Plus Test Cell - The DIGI Plus Test Cell from Parker is a compact, onboard oil test kit ideally suited for use in marine applications. The test cell

is used for testing for water in oil.

**Parker** Number Test Kit - Parker's oil test kit range provides a complete set of economically priced equipment, with a level of accuracy suited to routine analysis. The test kit is capable of testing for total base number (TBN).

**Home** DIGI Plus Field Test Kit - The DIGI Plus Field Kit from Parker comes complete with tests for Water in Oil, Total Base Number, Total Acid Number, Insolubles and Viscosity Comparison. This kit provides the ability to test on-site, resulting in convenient routine oil analysis
