

Absolute Rated Pre and Final Filtration Liquid Filters - PLEATFLOW

Part # G301002270S

Absolute rated efficiency 99.98% from 1 to 75 micron, available in a comprehensive range of end cap configurations and continuous lengths up to 40".

Technical Specifications

Seal Material:	Silicone	Filter Material:	Glass fibre / Polyester
End Cap Material:	Polypropylene	Cage Material:	Rigid net
End Cap Configuration:	Double open end	Length:	30" (762 mm)
Micron Rating:	10 µm		

[Safety Warning](#)

Item Information

The Pleatflow range of filter cartridges offer ideal solutions for the pre and final filtration of a wide variety of process liquids, providing long service life at minimal cost.

The 100% polypropylene hardware construction of the filter ensures minimum extractable levels with a range of industrial solvents and optimal integrity when used in physically demanding applications.

Pleatflow filter cartridge manufacturing utilises graded density medias in both glass fibre and polypropylene. The filter design provides broad chemical compatibility, consistent efficiency and superior service life.

With absolute rated filtration efficiency and high surface area, Pleatflow filter cartridges are a cost effective solution for both pre and final filtration.

Applications

Catalyst recovery / Reagent grade chemicals / Make-up and wash waters / Membrane prefiltration

Features

- Absolute rated efficiency 99.98% from 1 to 75 micron.
- Available in a comprehensive range of end cap configurations and continuous lengths up to 40"
- Continuous length with rigid cage and core
- High pleated surface area available in both PP and GF

Benefits

- Excellent fluid retention suitable for a wide range of clarification applications
- Compatible with existing systems and housings

Home
Provides high strength during operation

Products
High flow rates and low initial pressure losses
