Technical Specifications

Flow Rate: 0 to 500 l/min Filter Size: GS7 Filter Element Type: No element

No element Micron Rating: Nitrile

Seal Material:

Bypass Valve Pressure Rating: Connection Type:

G11/2 Indicator Type: No indicator block, ports plugged

Indicator Pressure Setting: No indicator

Options: With bypass and magnets

1.6 bar

⚠ Safety Warning

Item Information

Items marked with an asterisk * in the drop-down menus are standard choices.

The In-line GS Series comes in three different housing sizes and with several media options allowing a wide range of applications.

The Cast iron housings makes the GS series also suitable for marine application.

Pre-filtration with magnets is available as well as several connection options.

Available with Visual, Electrical or Visual/Electronic differential pressure indicators.

Max. nominal flow 350 l/min. Max. working pressure 40 bar.

Applications:

- · Industrial gear box lube oil filter
- Heavy fuel oil filter for diesel engines
- · Suction filter for fuel systems
- · Low pressure hydraulic oil filter
