## Technical Specifications

Filter Element Type:	N025 Cellulose Media	Product Series:	HPA Series
Size:	Length 1	Application:	<ul style="list-style-type: none"><li>• Low Flow Servo Systems</li><li>• Pilot Lines</li><li>• Small Mobile Equipment</li><li>• Lubrication Systems</li><li>• High Pressure Water Systems</li></ul>
Micron Rating:	25µm	Length:	32 mm
Division:	Hydraulic & Industrial Process Filtration EMEA	Diameter:	31 mm
Brand:	Parker	Options:	Stainless Steel Parts
Technology:	Filtration		
Product Type:	Hydraulic Filter		
Filter Type:	Replacement Elements

## Item Information

HPA Series mini high pressure filter are small and easy to install.

HPA is a robust solution to the low flow applications that larger filters are unable to effectively handle.

Made from high strength brass stampings and supplied with a wide range of media options. HPA Series mini pressure filters provide reliable, high efficiency protection.

Typical applications:

- Low Flow Servo Systems
- Pilot Lines
- Small Mobile Equipment
- Lubrication Systems
- High Pressure Water Systems

For more information or a detailed discussion about your specific requirements please contact Parker or an authorised Parker distributor.
