# In-Tank Mounted Filter - IN-AGB Series

#### WPharet t#BLIN 010QBNEXXX1

The IN-AGB Series is a low cost, high performance in-tank mounted return line filter featuring a quick response bypass construction with low hysteresis and a high dirt-holding capacity.

### **Technical Specifications**

Brand: Parker
Flow Rate: 50 l/min
Bypass Valve
Pressure Rating: 1.5 bar

Division: Hydraulic & Industrial Process Filtration Division EMEA

Filter Element Type: 10Q Microglass

Industry: Industrial Manufacturing Equipment, Off-Road

Machine Micron Rating: 10 μm

Application: Agricultural Machines, Articulated Dump Trucks, Forestry Equipment, Lubrication Systems, Excavators

Options: No Diffuser
Technology: Hydraulics, Filtration

⚠ Safety Warning

Hydraulic Oil
0-34 bar, 0-500 psi

Mounting Type: Tank Mounted

Specifications Met: Degree of filtration determined by multipass test

according to ISO 16889.

Indicator Type: No Indicator

## Item Information

The low-cost, high-performance return line IN-AGB filter features Q3 filter media, a bypass construction with low hysteresis, magnetic pre-filtration and a high dirt-holding capacity. The range is capable of handling flow rates from 30 l/min up to 2400 l/min. LEIF® elements are available for flow rates up to 1500 l/min, meeting the most stringent demands for environmentally-friendly filtration and offering protection against poor quality pirate elements.

#### **Features and Benefits**

- The filter is integrated into the tank for a compact, low-cost design
- Bypass construction with low hysteresis for improved system protection.

Itration removes ferrous particles, even during bypass conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions for improved fluid cleanliness levels and extended the conditions from the conditions of the conditions from the condition	d element life
