## Services In-Tank Mounted Filter - IN-AGB Series

### Whatett#BUN1405QLBNEXXX1

The IN-AGB Series is a low cost, high performance in-tank mounted return line filter featuring a quick response bypass construction with low hysteresis and a high dirt-holding capacity.

## **Technical Specifications**

| Brand:                           | Parker   | Product Type:              | Hydraulic Filter                                  |
|----------------------------------|--|----------------------------|---|
| Flow Rate:                       | 900 l/min  | Seal Material:             | Nitrile   |
| Bypass Valve<br>Pressure Rating: | 1.5 bar  | Height:<br>Product Series: | 653 mm<br>IN-AGB Series                           |
| Division:                        | Hydraulic & Industrial Process Filtration Division EMEA  | For Fluid Type:            | Hydraulic Oil                                     |
| Filter Element Type:             | 05QL Ecoglass  | Outside Diameter:          | 230 mm  |
| Industry:                        | Industrial Manufacturing Equipment, Off-Road<br>Machinerv  | Operating Pressure:        | 0-34 bar, 0-500 psi                               |
| Micron Rating:                   | 5 μm   | Operating<br>Temperature:  | -40 to +100 °C                                    |
| Application:                     | Agricultural Machines, Articulated Dump Trucks,<br>Forestry Equipment, Lubrication Systems, Excavators | Mounting Type:             | Tank Mounted                                      |
| Options:                         | No Diffuser  | Specifications Met:        | Degree of filtration determined by multipass test |
| Technology:                      | Hydraulics, Filtration   | Indicator Type:            | according to ISO 16889.<br>No Indicator           |
| A Safety Warning                 |  |                            |   |

# **Item Information**

The low-cost, high-performance return line IN-AGB filter features Q3 filter media, a bypass construction with low hysteresis, magnetic pre-filtration and a high dirt-holding capacity. The range is capable of handling flow rates from 30 l/min up to 2400 l/min. LEIF® elements are available for flow rates up to 1500 l/min, meeting the most stringent demands for environmentally-friendly filtration and offering protection against poor quality pirate elements.

### Features and Benefits

· The filter is integrated into the tank for a compact, low-cost design

· Bypass construction with low hysteresis for improved system protection.
