# **Services Top-mounted Breathers and Filler Breathers - AB Series**

## Whatt#BLyFC.622231

The Parker AB Series comprises a broad range of topmounted breathers and filler breathers. The filler breathers protect hydraulic systems from airborne particle ingress, while allowing sufficient airflow into and out of the fluid reservoir.

## **Technical Specifications**

Features:		Micron R 💬	10 µm	
Brand:	Parker	Technolog	Filtration, Hydraulics	
Product Type:	Lockable Filler Breather	Installation:	Stand Pipe mounting	
Division:	Hydraulic & Industrial Process Filtration Division EMEA	Connection	Push-on mounted	
Housing	Zinc Aluminium Alloy	Туре:	Push-on mounted	
Material:		Product Series:	AB Series	
Pressure Relief Valve Type:	Un-Pressurised	For Fluid Type:	Air	
		Strainer Type:	Without strainer	
Industry:	Agriculture, Construction, Oil and Gas, Marine, Mining,	Includes:	-	
Flow Rate:	Forestry 1500 l/min	Operating	-30 / +90	
FIUW Rate.	Deck and Mobile Cranes, Firefighting Equipment, Forwarders,	Temperature:	-307 190	
Application:	Hydraulic Presses, Marine Steering Units, Power Packs, Waste Management, Dump and Fork Lift Trucks, Excavators, Harvesters, Waste Balers, Reach Stackers, Wheeled Loaders, Drilling Equipment, Industrial Power Units	Outside	107 mm x 149 mm	
		Diameter:		
		Mounting Type:	Tanktop	
		Seal Material:	Nitrile	
A Safety Warning				

## **Item Information**

Ingress of airborne contaminants into hydraulic systems can cause a number of costly issues, including increased wear on pumps and cylinders, decreased performance, shorter maintenance intervals, and added downtime.

The Parker AB Series comprises a full range of top-mounted breathers and filler breathers designed to prevent this by keeping out harmful contaminants and allowing the tank / fluid reservoir to effectively breath during equipment operation. Multiple configurations are available to meet the unique requirements of customers' hydraulic systems, including:

Glass-filled nylon or plated metal steel. Multiple installation available including single hole, three hole, or six hole installation. 2 C C 0 L/min (163 GMP).  $\bigcirc$ 문

**<u>Forre</u>v-on type Breathers** - Glass-filled nylon or plated metal steel. Multiple connection types available. Flow rates up to 620 L/min (163 GPM). Dipsticks available with all options (two lengths and in packs of 10).

Products Lockable Fillers and Filler Breathers (metal) - Pressurized and unpressurized threaded types available. For added reservoir security and oil protection, certain metal filler breathers can be specified with a locking lug option.

AB Series breathers and filler breathers are ideally suited for equipment required to operate in environments laden with dirt and dust. Industries

### Benefits

Services ts contamination and ingress of dirt, sand, dust, metal, etc. into hydraulic circuits, while allowing sufficient airflow into and out of the fluid reservoir

Solutions

· Lengthens time in between required maintenance intervals, reduces operating costs, and extends overall equipment/machine operational life Where to Buy

#### Features:

- · Molded in non-corrodible, glass-filled nylon strong and light
- · Filler breathers available with single hole, six hole, and three hole installation
- Screw-on breather range G1/2 and G3/4 options
- Compact range G1/4, G3/8, R1/2 and R3/4 options
- · Metal filler breathers pressurized and unpressurized threaded type
- Flange mounting type options
- · Lockable options for reservoir security and oil protection

For more information or a detailed discussion about your specific requirements please contact Parker or an authorised Parker distributor.
