Fulflo Honeycomb Wound Filter Cartridges | Multi-purpose design with nominal 90% efficiency from 0.5-150 micron

[Where to Buy](#)

Part #: M11R20A

Parker has been a leader in filter media innovation and performance since we first invented the Honeycomb™ Filter Tube over 65 years ago. Parker has the world's largest manufacturing capacity for wound filter cartridges, offering superior quality.

Technical Specifications

Industry:	Food and beverage	End Cap Material:	No end cap
End Cap Finish:	No end treatment	Filter Construction:	Polypropylene FDA grade
Core Cover Material:	No core cover	Core Type:	Polypropylene
Brand:	domnick hunter	Micron Rating (µm):	50
Function:	Clarification/Prefiltration/Polishing	Packaging:	STANDARD PACKAGING
Media:	Polypropylene FDA grade	End Cap Configuration:	DOE
Filter Construction:	Wound	Seal Material:	No gasket
Inside Diameter:	1 inch	Length (inch):	20
Specifications Met:	FDA	Outside Diameter (inch):	2 7/16
Flow Rate:	5 GPM per 10 inch

Item Information

Parker has been a leader in filter media innovation and performance since we first invented the Honeycomb™ Filter Tube over 65 years ago. Parker has the world's largest manufacturing capacity for wound filter cartridges, offering superior quality along with technical, engineering and marketing support. Effective removal ratings at nominal 90% efficiency from 0.5µm to 150µm.

Features/Benefits

- A broad range of media provide excellent compatibility with a variety of organic solvents, animal, petroleum and vegetable oils
- Optional core covers and end treatments assure fiber migration control
- Multiple length filter cartridges minimize change-out time, eliminate spacers and are available to fit competitive filter vessels
- FDA grade polypropylene (DOE only) filter cartridges certified to ANSI/ NSF61 standard for contact with drinking water components

- Customized winding geometry provides performance consistency
 -  extended center core option eliminates the need for cartridge guides in all competitive and Fulflo® multi-cartridge vessels
 -  extender is available for polypropylene cores
 - Cotton, polypropylene, nylon and polyester materials are FDA listed as acceptable for potable and edible liquid contact according to CFR Title 21
 - O-ring/end cap options available
 - ISO9001:2008 registered company
