Item Information

Parker's MaxGuard™ high capacity filter cartridge product line provides a cost-effective alternative to bag media or standard 2½ inch filter cartridges for high flow applications. Each MaxGuard filter cartridge has a 6″ nominal outside diameter and can handle flows up to 90 gpm, significantly reducing the number of filter cartridges required for large flow applications.

MaxGuard filter cartridges are available in polypropylene, and cellulose media. All filter cartridges feature an industry standard 226 positive O-ring seal and easy-to-grasp integrated handle.

Features/Benefits

- High flow capacity means fewer cartridges and reduced labor costs associated with change-out
- · High flow capacity allows for smaller housings and less capital expenditure
- Heavy wall core ensures superior strength
- · Integrated handle makes changeouts fast, easy and safe
- Positive 226 O-ring seal assures filtration integrity
- · Absolute retention ratings for critical filtration
- Polypropylene cartridges listed as acceptable for potable and edible contact according to CFR Title 21
- · Manufactured with strict quality control
- ISO 9001 registered

Applications

- Deep well injection Filtration
- Amines Filtration
- Commercial water Filtration
- · Food and Beverage Filtration
