Technical Specifications

| | | | |
|---------------------|--|----------------------------|---|
| Operating Pressure: | 0-250 bar (0-3625 psi) | Materials of Construction: | Case: BS 304 S15 Stainless Steel Window: Acrylic Movement: Brass Dial: White Aluminium Pointer: Black Aluminium |
| Division: | Hydraulic and Industrial Process Filtration EMEA | Connection Type: | Panel Mounting / 3-Hole Flange |
| Port Size: | G1/4 | Options: | Bourdon Tube: Phosphor bronze, helical type |
| Brand: | Parker | Ingress Protection Rating: | IP 65 |
| Product Type: | Pressure Gauge | | |
| Diameter: | 63 mm (2.5 inch) | | |

[Safety Warning](#)

Item Information

Pressure gauges are used in several applications to give an instant visual indication of system pressure level.

Parker pressure gauges have a stainless steel casing and acrylic glass window. They are filled with 99,7% glycerine.

Features

- Temperature range up to 60°C.
- Accuracy down to 1.0% of full scale.
- IP Class 65.

For more information or a detailed discussion about your specific requirements please contact Parker or an authorised Parker distributor.
