Technical Specifications

Division:	Hydraulic and Industrial Process Filtration EMEA	Connection Type:	Panel Mounting / 3-Hole Flange
Operating Pressure:	0-400 bar (0-5801 psi)		Case: BS 304 S15 Stainless Steel
Brand:	Parker	Materials of Construction:	Window: Acrylic
Port Size:	G1/4		Movement: Brass
Product Type:	Pressure Gauge	Options:	Dial: White Aluminium
Diameter:	63 mm (2.5 inch)	Ingress Protection Rating:	Pointer: Black Aluminium
			Bourdon Tube: Phosphor bronze, helical type
			IP 65

[Safety Warning](#)

Item Information

Pressure gauges are used in several applications to give an instant visual indication of system pressure level.

Parker pressure gauges have a stainless steel casing and acrylic glass window. They are filled with 99,7% glycerine.

Features

- Temperature range up to 60°C.
- Accuracy down to 1.0% of full scale.
- IP Class 65.

For more information or a detailed discussion about your specific requirements please contact Parker or an authorised Parker distributor.
