Tanktop Mounted Return Line Filter - Tanktopper Series

Part #: TPR210QBG2EG12E

The Tanktopper from Parker is an all-in-one, easy-to-mount return line filter solution featuring an integrated air breather for a compact and cost-effective tank design.

Technical Specifications

Flow Rate:	0 to 70 l/min	Product Series:	Tanktopper
Brand: Division:	Parker Hydraulic & Industrial Process Filtration Division EMEA	Indicator Pressure Setting:	1.2 bar
Bypass Valve Pressure Rating:	1.5 bar	Options: Product Style:	Incl. Magnet Tanktop Return Line
Connection Type:	G¾"	For Fluid Type:	Hydraulic Oil
Industry:	Industrial Manufacturing Equipment	Seal Material:	Nitrile
Filter Element Type:	10Q Microglass	Operating Pressure:	10 bar, 150 psi
Application:	Fork Lift Trucks, Power Packs, Mini Excavator, Gully- Sucker, Dredging Ships, Mobile Cranes, Refuse Vehicles 10 μm Filtration	Operating Temperature: Mounting Type: Housing Material:	-40 to +80 °C, -40 to +176 °F
Micron Rating:			Tank Mounted
Technology:			Aluminium
Indicator Type:	Visual, pressure gauge	Specifications Met:	Degree of filtration determined by multipass test according to ISO 16889.
Product Type:	Hydraulic Filter		-
⚠ Safety Warning			

Item Information

The Tanktopper series is a return line filter with an integrated air breather eliminating the use of a separate air breather for a more compact, costeffective design. The air breather is equipped with a high-quality labyrinth preventing oil leakage for improved efficiency. A second port and dipstick are available so the filler port and level indicator can be integrated into the filter significantly reducing the use of reservoir accessories.

A magnetic prefiltration column removes ferrous particles, even during bypass conditions for improved fluid cleanliness levels and extended element lifetime, while the in-to-out filtration design ensures all captured contamination is retained inside the element preventing recontamination of the system during element changeouts.

Product Features

- Total filtration solution with integrated air breather
- In-to-out filtration plus gauge and switch options
- Maximum pressure of 10 bar
- Maximum flow of 650 L/min
- Patented LEIF® elements safeguard filtration quality
