Item Information

The function of plugs for Ermeto DIN high pressure hydraulic fittings is the safe closure of ports in hydraulic systems. This broad range of plugs, types ROV, VSTI M-OR up to BUZM is available in steel and in a stainless steel version.

Markets:

- Automotive
- Defense
- Energy
- Environment
- Industrial
- Infrastructure
- Machine Tools
- Materials Handling
- Mobile
- Oil and Gas
- Power Generation
- Process
- Transportation
- Water

Applications:
• Steel and Stainless steel fittings for general hydraulic applications.

Features/ benefits:

- Steel and Stainless steel fittings have a high corrosion resistance to aggressive media and environmental influences. These features extend the range of applications.
- High pressure: The plugs have pressure ratings of up to 630 bar, so that the plugs can be used in a wide range of applications.
